Summary

CRM certified BDR with HubSpot + Salesforce credentials, focused on outreach operations, clean data, and pipeline visibility.
Background: 2 years in IT + Canvas administration support, managing high-volume requests, documentation, and process consistency.
Strengths I bring to early-stage sales

Work Experience

Academic Operations & LMS Support Specialist
Brookdale Community College | August 2025 - Present

- **Course build + launch support:** build and sanitize Canvas course shells for instructors and support SIS term launches for **8,000+ students**
- **CRM style sanitization:** standardize course content and settings (naming conventions, duplicates, consistency) to improve visibility and reduce repeat issues
- **Process + documentation:** create step by step guides and templates; typical turnaround **same day** for small requests and **24–48 hours** for larger builds
- **Reduced support ticket turnaround time by ~50%** (from ~2 days to same day) through tighter triage, reusable templates, and documented fixes.
- **Data quality / QA:** audit courses and settings, fix errors, and ensure consistency across builds before term start
- **Training:** help teach and run **Canvas LMS certifications** and student/faculty technology resources

Testing Services / Operations Specialist (Pearson VUE Certified)
Brookdale Community College | Oct2015 – June 2025

- Supported **up to 200 students and community members per day** in a high volume, customer facing environment, managing intake, scheduling, and issue resolution with professionalism and urgency.
- Built a **qualification style intake workflow** to capture accurate details, route requests correctly, and maintain clean records for **tracking and reporting**.
- Maintained strict compliance with **FERPA** and testing security standards while handling sensitive information and identity verification.
- Provided onsite **technical troubleshooting** during exam sessions (workstation setup, login issues, connectivity, peripherals) to prevent cancellations and delays.
- Coordinated escalations and service improvements with **senior leadership**, delivering clear updates, documentation, and next steps.
